

These creatures have made Walmer their home so please **be kind** to them!

GARDEN SNAIL

A snail is a gastropod, meaning it has a soft body with a flat base which it uses to move around.

EARTHWORM

Worms will eat just about anything as long as it's dead. They have no eyes and they breathe through their skin.

SPIDER

Spiders are arachnids, meaning they have eight legs and a body made of two parts.

APHID

These tiny insects have needle-like mouths for piercing and sucking sap from plants.

SPOTTER SHEET

KSI-2

CENTIPEDE

Most centipedes don't actually have 100 legs. They have two legs per body segment and they all grow to different lengths.

CATERPILLAR

Caterpillars create cocoons around themselves and eventually come out as butterflies or moths. This is called metamorphosis.

WOODLOUSE

A woodlouse is a crustacean, meaning it has a tough outer shell and is related to lobsters and crabs.

### DID YOU KNOW?

These creatures are all invertebrates, meaning they don't have backbones.
